				\$

Internal cost recovery	Total internal allocation	USD \$8,321.20
------------------------	---------------------------	----------------

USAGE PROFILE

Daily steam output (klb) • no chilled water this period

This statement allocates Northlake Thermal Plant operating costs to campus cost centers on an internal cost-recovery basis. Amounts shown are inter-departmental transfers within Northlake University — not charges payable to an external utility. Allocations derive from metered ton-hours, peak chilled-water demand, and metered steam, plus each center's share of fixed plant operations and maintenance.
