EEM Application Branding — Login & Email

DATE October 1, 2026
PREPARED BY Northlake University

Provided by: Northlake University IT & Communications. Synthetic/fictional. This is the branding Northlake provides for our EEM Suite portal: the **login page** customization, **logos**, and **transactional email** look. Field names match the EEM Suite login customization model (`CustomLoginInfo`) and email template tokens so they map straight in.

Brand palette (reuse across all assets): **deep navy** `#1F3A5F` (primary), **warm gold** `#C9A227` (accent), slate gray, white. Typeface: a clean sans (Open Sans is fine — matches the email templates).

> **Rendered deliverable:** generated assets + templates live in `documents/brand/` (logos/icons in `images/custom/`, branded email templates in `email-templates/`, filled `login-customization.pdf`, mockups + previews). Email tokens were verified/corrected against the real EEM templates. See `documents/brand/eem-portal-brand-kit.pdf` for the deployment map.

1. Login page customization (`CustomLoginInfo`)

Field	Value
HeaderRightLogoUrl	`/images/custom/northlake-header-logo.png`
HeaderRightLogoTitle	Northlake University
HideHeader	false
HideFooter	false
LoginHeader (kicker)	Energy & Utility Management
LoginTitle	Northlake University
LoginTitleUnderline	Energy Portal
LoginDescription	Secure access to Northlake's campus energy, utility, and sustainability data.
LoginLaptopCaption	Manage Northlake's energy with EEM Suite
LoginCustomerLogoPath	`/images/custom/LoginLogoRight.png` (the right-side hero image; this exact name is the override EEM looks for)
LoginCustomerLogoTitle	Northlake University Energy Portal
LoginHeaderColor (kicker)	`#C9A227`
LoginHeaderFontColor	`#FFFFFF`
HeaderBackGroundColor	`#1F3A5F`

Field	Value
BackGroundColor	`#F5F6F8`
LoginFooterTitle	Need help?
EEMLinkURL	https://sustainability.northlake.example.edu
EEMLinkURLText	Northlake Sustainability

Bullets (login feature list — `Bullets[]`, Title + Description)

1. **All your utilities, one portal** — Electricity, gas, water, thermal, and solar across every property.
2. **Cost & usage at a glance** — Track spend and consumption by building, account, and meter.
3. **Sustainability built in** — ENERGY STAR scores and greenhouse-gas reporting from the same data.
4. **Right access for every team** — Facilities, Finance, Housing, and Sustainability each see what they need.

Footer "Need help?" contacts (`LoginFooterContact1..3`)

Slot	Type	Pre	Value	Post
1	email	Email	energy.support@northlake.example.edu	
2	other (phone)	Call	(916) 555-0142	(Mon–Fri, 8am–5pm PT)
3	url	Status	https://status.northlake.example.edu	

Partners (`Partners[]`)

None for launch (optional; could add Helios Onsite Solar later).

2. Logo & image assets

Asset	Where it's used	Spec
Master logo	source of all others	Northlake University wordmark + a small lake/leaf mark; vector (SVG)
`LoginLogoRight.png`	login hero (right panel)	~800×600, transparent or on a soft navy/gradient panel; campus + energy feel
`northlake-header-logo.png`	login header (top-right)	horizontal logo, transparent, ~200×48, reads on light header
`northlake-email-logo.png`	email header	**reversed/white** logo to read on the navy email header, 148×38 (provide @2x 296×76)
`favicon` / app icons	browser tab / PWA	32×32 favicon + 192 & 512 app icons; theme color `#1F3A5F`

Place login/header logos under `images/custom/` (the path EEM checks for overrides).

3. Transactional email branding

EEM emails use a shared layout (`_Layout.html`) with tokens and per-email bodies (Password Reset, Verify Email, Email Changed, Workflow notifications). We provide the **brand**, not the message logic — keep all `{{tokens}}` intact.

Element	Northlake value
Header background	`#1F3A5F` (navy)
Accent bar / eyebrow / button	`#C9A227` (gold) — replaces the default EEM orange/red
Logo (`{{LogoUrl}}`)	`northlake-email-logo.png` (reversed)
Logo link (`{{LogoRedirectUrl}}`)	https://energy.northlake.example.edu
Top-right label	"Northlake University Energy Portal" (replaces "Energy Management Notification")
Footer	"© {{CurrentYear}} Northlake University Energy Portal — powered by EEM Suite (Energy Hippo, a Univerus company). This is an automated message; replies are not monitored."
Support line	"Questions? energy.support@northlake.example.edu"
From / Reply-to name	Northlake University Energy Portal / noreply@northlake.example.edu

Templates to brand (each = `.html` body + `.subject.txt` + `.txt` plain text), under the `_Layout.html` shell:

- Account / **PasswordReset** (tokens `{{ResetUrl}}`, `{{ExpiresIn}}`)
- Account / **VerifyEmail**
- Account / **EmailChanged**
- Workflow / **Default** (general notification)

Keep subject lines clear; Northlake is fine with the standard wording (e.g. "Reset your Northlake Energy Portal password").

Open items

- Confirm the support phone, status URL, and sustainability link.
- Confirm whether to co-brand the email footer (as above) or keep vendor-only.
- Provide final brand fonts if different from Open Sans.
