Data Collection Workbook — Later-Phase Requirements

DATE October 1, 2026
PREPARED BY Northlake University

Provided by: Northlake Facilities & Finance. Synthetic/illustrative. These requirements are already represented in the Data Collection Workbook. Packet 0.4 gives the workbook 27 tabs: 22 tabs generated from the inventory (including Hierarchy, Service Profiles, Meters, Units and Submeters, Measured Points, related measurements, rollup members, weather assignments, rate schedules and components, and source mappings) and the 5 later-phase tabs below. Contacts and Departments & Responsibilities contain the complete implementation directory and department ownership. Hierarchy records each company's sites and buildings; a building appears once, in the company that owns its site, and Meters supplies each meter's full parent path.

This document retains the later-phase requirement tables. Current structured inventory and tariff values are generated from the versioned sources; installed setup and acceptance are recorded separately.

Rate schedules

The Rate Schedules and Rate Components tabs are generated from our six providers' tariffs (17 base schedules, Ridgeline's transfer price and the two Valley Electric generator schedules included); the rate tariff sheets carry the detail. Analysis-only rates we'd like added: a real-time/index electric option and a large-demand ratchet rate.

Tab: Chart of Accounts

GL account	Type	Description	Default Fund	Default Dept
5100-ELEC	Expense	Electricity	110 Operating	Facilities
5110-GAS	Expense	Natural gas	110 Operating	Facilities
5120-WATER	Expense	Water/sewer/stormwater	110 Operating	Facilities
5130-THERMAL	Expense	Chilled water/steam	700 Plant	Facilities
5140-SOLAR	Expense	Solar PPA	110 Operating	Facilities
5150-WIND	Expense	Ridgeline wind energy transfer	700 Plant	Ridgeline Wind
2000-AP	Liability	AP control	—	—

Coding segments: Fund, Department, Program, Activity/Project, Object.

Tab: Users & Access

Name	Title	Property	Role	Status
Samantha Ireland	Director of Campus Operations	University	Company admin / reports	Active
Jordan Hale	Facilities Systems Manager	University	Hierarchy/meter setup	Active
Priya Nandakumar	Energy Finance Lead	University	Utility & rate setup; import	Active
Nora Chen	Bill Import Specialist	University + Cedar Row	Bill import (cross-property)	Active
Iris Morales	Bill Entry Clerk	University	Bill entry (no approval)	Active
Leo Martinez	Sustainability Analyst	University	Sustainability reports	Active
Emerson Fox	Campus Data Administrator	University	Data/DB admin	Active
Quinn Roberts	Internal Audit Reviewer	All	Read-only audit (cross)	Active
Keiko Tan	Thermal Allocation Accountant	University + Plant	Allocation rates	Active
Dana Okafor	Science Center Coordinator	University	Reports — Science Center only	Active
Casey Holt	Former Bill Entry Clerk	University	(disabled — no login)	Disabled
Maya Chen	Property Manager	Cedar Row	Company admin / reports	Active
Marcus Reed	Accounts Coordinator	Cedar Row	Bill entry	Active
Valerie Kim	Housing Operations Analyst	Cedar Row	Hierarchy / reports	Active
Devon Brooks	Thermal Plant Manager	Plant	Company admin / operator	Active
Riley Santos	Thermal Plant Operator	Plant	Plant operator / reports	Active
Avery Singh	EEM Database Administrator	Support	System DB admin	Active
Morgan Patel	Implementation Consultant	Support	App setup	Active
Taylor Bennett	Support Analyst	Support	Read-only support	Active
Mateo Alvarez	Ridgeline Wind Site Manager	Plant (Ridgeline)	Wind operations, Ridgeline site only; plant reports	Active
Renee Castillo	Wind Turbine Technician	Plant (Ridgeline)	Wind operations, Ridgeline site only	Active
Elena Vasquez	Wind Energy Research Lab Director	University	Read-only research, Ridgeline site only	Active
Kai Nakamura	Graduate Research Assistant	University	Read-only research, Ridgeline site only	Active

Plus ≈120 building representatives as **report-delivery recipients** (groups).

Tab: Tenants & Leases

Cedar Row is part of this packet; Town Center is a later implementation phase.

Property	Building	Tenant / space	Approx. size	Split method	Master meter
Town Center	Market Hall	Anchor Store	—	Fixed + common	Mall-Main
Town Center	Market Hall	Food Court	—	15%	Mall-Main
Town Center	Market Hall	In-line Shop 1–4	by sq ft	Building area	Mall-Main
Town Center	Tower	Floor 1–4	—	Sub-metered	Tower-Main
Town Center	Tower	Landlord/house	—	Remainder	Tower-Main
Town Center	Campus Annex	Bldg A/B/C	—	Usage + coincident demand	Annex-Main
Town Center	Substation	Substation 1/2	—	% of usage	Substation-Master
Town Center	—	Property Total	—	Aggregation of all	—
Cedar Row	A	60 apartments	—	By apartment electric and water submeter; sewer capped at winter average; house submeters as overhead	Cedar Row A Electric Master; Cedar Row A Water Master
Cedar Row	B	64 apartments	—	Same as A	Cedar Row B Electric Master; Cedar Row B Water Master

Tab: Sustainability

Property	ENERGY STAR function	Score?	GHG scope sources
Main Campus (parent)	College/University	Metrics only	Scope 1 gas, Scope 2 electric, Scope 3 water; allocated plant steam and chilled water
Admin Hall	Office	Metrics only	as above
Science Center	Laboratory	Metrics only	as above
Library	Library	Metrics only	as above
Student Center	Food Service	Metrics only	as above
Lakeview Residence Hall	Residence Hall/Dormitory	Yes	as above

Property	ENERGY STAR function	Score?	GHG scope sources
Recreation and Aquatics Center	Fitness Center/Health Club/Gym	Metrics only	as above
Parking Structure	Parking	Metrics only	Scope 2 electric
Cedar Row	Multifamily Housing	Yes	Scope 1 gas, Scope 2 electric, Scope 3 water
Central Plant	Other - Utility	Metrics only	Scope 1 boiler gas, Scope 2 electric, Scope 3 makeup water
Ridgeline Wind Site	— (no ENERGY STAR property)	No	Scope 2 station service; wind generation reported as avoided emissions

Solar = market-based Scope 2 reduction; Northlake retains RECs. Wind = the same treatment for Ridgeline's generation (Northlake retains those RECs too); the Valley Electric bill credit is a cost item, not an emissions claim.

Tab: Projects

Project	Category	Capital	Incentive	M&V baseline
Library LED Retrofit	Lighting	$120k	$25k	Library lighting kWh
Central Plant Chiller Upgrade	HVAC	$640k	$80k	plant kWh per CHW ton-hour
Cedar Row Solar Expansion	Renewable	$410k	ITC	solar generation
Admin Hall Recommissioning	Controls	$55k	$10k	gas + electric
Ridgeline WTG-07 Gearbox Replacement	Generation	$310k	—	WTG-07 generated kWh against possible power
