Northlake Facilities and Meter Register

DATE October 1, 2026
PREPARED BY Northlake University

Packet 0.4 | Issued 2026-10-01 | Fictional customer

This register describes the requested setup. Every building appears once, under the company that owns its site, and lists every meter that serves it. Installation and ingestion acceptance are pending.

Customer decisions

- **Ownership:** Campus, Cedar Row and Thermal Plant are separate EEM companies. A building exists once, in the company that owns its site, and holds every meter that serves it.
- **Thermal plant boundary:** The plant company contains only the Central Plant: its utility services, production meters and controller. The chilled-water and steam meters at served buildings belong to the university, with the plant as provider.
- **Cedar Row metering:** Master-metered by building with owned submeters: one electric and one water submeter per apartment plus house meters. The utility bills the property, never a resident.
- **Names and areas:** Buildings keep the names the customer uses (Science Center, Library); every document and manifest uses the same name and the scenario areas.
- **Student Center thermal service:** Steam only; chilled-water service is not part of the current inventory.
- **Weather:** Northlake University owns the shared KSAC and KSMF references. All buildings use KSAC observations; KSMF is the secondary and forecast source.
- **Deduct meters:** Kitchen, pool-fill and cooling-tower deduct submeters are read monthly by hand; the input path into EEM is a Stage 2 decision.
- **Stormwater:** Campus building water accounts include stormwater ERUs; irrigation, fire-service, Central Plant and Cedar Row accounts have no stormwater charge.
- **Solar:** Northlake retains RECs under HOS-PPA-2024. Keep exported energy distinct from total generated energy.
- **Overlapping measurements:** Library historian values and meter readings represent the same service; do not add them together.
- **Rollup boundary:** Campus interval totals cover the four interval-metered buildings (Science Center, Student Center, Lakeview Residence Hall, Recreation and Aquatics Center); they are not the entire campus utility total.
- **FIG variants:** Seven format cases reuse one destination measurement in separate restored runs. Never ingest all variants together as independent consumption.
- **Ridgeline Wind:** The Thermal Plant bought Ridgeline Wind on 2024-07-01 with university capital funding. Its site belongs to the plant company: ten turbine meters, a met mast and the Valley Electric interconnection meter. The plant buys the output at an internal transfer price, and EEM generates that monthly statement.
- **Wind credits:** Valley Electric credits the farm's export on the generator account and moves the credit to the Central Plant account (VED-BCT). The credit appears on both bills; count it once.

- **Research access:** The Wind Energy Research Lab is part of the university. Its researchers read the Ridgeline site, and nothing else of the plant, with no access to bills or setup.

Hierarchy

Company, site and building nodes. Every company uses the same four levels (Site, Building, Meter, Point); a building appears once. Continue with Meters and Measured Points. UI setup remains pending.

Company	Node Name	Parent Node	Level	EEM Type	Parent Path	Notes
Northlake University	Northlake University	System	Company	Company	System	Separate EEM company.
Northlake University	Northlake Main Campus	Northlake University	Site	Site	System / Northlake University	Campus grouping. Aggregate points may sit here.
Northlake University	Admin Hall	Northlake Main Campus	Building	Location	System / Northlake University / Northlake Main Campus	Meter parent. See Meters.
Northlake University	Science Center	Northlake Main Campus	Building	Location	System / Northlake University / Northlake Main Campus	Meter parent. See Meters.
Northlake University	Library	Northlake Main Campus	Building	Location	System / Northlake University / Northlake Main Campus	Meter parent. See Meters.
Northlake University	Student Center	Northlake Main Campus	Building	Location	System / Northlake University / Northlake Main Campus	Meter parent. See Meters.
Northlake University	Lakeview Residence Hall	Northlake Main Campus	Building	Location	System / Northlake University / Northlake Main Campus	Meter parent. See Meters.
Northlake University	Recreation and Aquatics Center	Northlake Main Campus	Building	Location	System / Northlake University / Northlake Main Campus	Meter parent. See Meters.
Northlake University	Parking Structure	Northlake Main Campus	Building	Location	System / Northlake University / Northlake Main Campus	Meter parent. See Meters.
Northlake University	Campus Grounds	Northlake Main Campus	Building	Location	System / Northlake University / Northlake Main Campus	Outdoor service area; meter parent. See Meters.
Northlake University	Weather Reference	Northlake University	Site	Site	System / Northlake University	Shared KSAC, KSMF and KSUU station meters; see Stage 1B weatherIndexTargets.
Cedar Row Apartments	Cedar Row Apartments	System	Company	Company	System	Separate EEM company.
Cedar Row Apartments	Cedar Row Apartments	Cedar Row Apartments	Site	Site	System / Cedar Row Apartments	Multifamily grouping. Aggregate points may sit here.

Company	Node Name	Parent Node	Level	EEM Type	Parent Path	Notes
Cedar Row Apartments	Cedar Row A	Cedar Row Apartments	Building	Location	System / Cedar Row Apartments / Cedar Row Apartments	Meter parent. See Meters.
Cedar Row Apartments	Cedar Row B	Cedar Row Apartments	Building	Location	System / Cedar Row Apartments / Cedar Row Apartments	Meter parent. See Meters.

Northlake Thermal Plant	Ridgeline Turbine Field	Ridgeline Wind Site	Building	Location	System / Northlake Thermal Plant / Ridgeline Wind Site	Outdoor service area; meter parent. See Meters.
Northlake Thermal Plant	Ridgeline Substation	Ridgeline Wind Site	Building	Location	System / Northlake Thermal Plant / Ridgeline Wind Site	Outdoor service area; meter parent. See Meters.

Departments & Responsibilities

Departments and their contacts. Departments describe responsibility only; they never create hierarchy nodes.

Organization	Department	Purpose / Responsibility	Primary Contact	Email	Phone	Review Status	Notes
Northlake University	Campus Operations	Overall sponsorship, scope decisions and implementation priorities.	Samantha Ireland	samantha.ireland@northlake.example.edu	916-555-0101	Documented	Scope decisions, implementation priorities and escalation.

Organization	Department	Purpose / Responsibility	Primary Contact	Email	Phone	Review Status	Notes
Northlake University	Facilities Operations	Campus utilities, BMS coordination, meter maintenance and vendor access.	Jordan Hale	facilities.ops@northlake.example.edu	916-555-4100	Documented	Facilities shared mailbox.
Cedar Row Apartments	Housing Operations	Cedar Row operations, resident utility questions and common-area service.	Maya Chen	housing.ops@northlake.example.edu	916-555-4200	Documented	Housing shared mailbox; belongs to Cedar Row Apartments.
Northlake University	Finance and Accounts Payable	Utility account ownership, invoice payment, account changes and bill processing.	Priya Nandakumar	ap@northlake.example.edu	916-555-4300	Documented	Finance and accounts payable shared mailbox.
Northlake University	Sustainability Office	Reporting, renewable energy accounting, emissions factors and performance tracking.	Leo Martinez	sustainability@northlake.example.edu	916-555-4400	Documented	Sustainability shared mailbox.
Northlake Thermal Plant	Thermal Plant Operations	Plant operations, steam and chilled-water service, allocation statements and controller sources.	Devon Brooks	devon.brooks@northlake.example.edu	916-555-0104	Documented	Internal thermal-service counterparty and plant escalation contact.
Northlake Thermal Plant	Ridgeline Wind Operations	The plant's wind company: turbines, SCADA and met mast, the Valley Electric interconnection and the monthly transfer statement.	Mateo Alvarez	ridgeline.ops@northlake.example.edu	707-555-0146	Documented	Ridgeline operations shared mailbox; internal counterparty for the transfer statements.
Northlake University	Wind Energy Research Lab	Mechanical Engineering research on the Ridgeline turbines: performance, power curves and wake losses. Reads data; never changes setup.	Elena Vasquez	wind.research@northlake.example.edu	916-555-4510	Documented	Research lab shared mailbox; read-only access to the Ridgeline site.

Contacts

Company contacts and utility representatives. All details are fictional; shared contact mailboxes can differ from user login email.

Organization	Contact Name	Role	Email	Phone	Applies To	Review Status	Notes
Northlake University	Samantha Ireland	Director of Campus Operations	samantha.ireland@northlake.example.edu	916-555-0101	Overall sponsorship	Documented	Scope decisions, implementation priorities and escalation.
Northlake University	Jordan Hale	Facilities Systems Manager	facilities.ops@northlake.example.edu	916-555-4100	Meters, buildings and source systems	Documented	Facilities shared mailbox.
Northlake University	Priya Nandakumar	Energy Finance Lead	ap@northlake.example.edu	916-555-4300	Billing accounts, invoices and account changes	Documented	Finance and accounts payable shared mailbox.
Northlake University	Iris Morales	Utility Bill Entry Clerk	iris.morales@northlake.example.edu	916-555-0102	Bill entry and corrections	Documented	Utility bill processing contact.
Northlake University	Nora Chen	Utility Bill Import Specialist	nora.chen@northlake.example.edu	916-555-0103	Bill imports for Northlake University and Cedar Row	Documented	Cross-property billing contact.
Northlake University	Leo Martinez	Sustainability Analyst	sustainability@northlake.example.edu	916-555-4400	Solar, weather and sustainability reporting	Documented	Sustainability shared mailbox.
Cedar Row Apartments	Maya Chen	Cedar Row Property Manager	housing.ops@northlake.example.edu	916-555-4200	Cedar Row operations and resident utility questions	Documented	Housing shared mailbox; belongs to Cedar Row Apartments.
Northlake Thermal Plant	Devon Brooks	Thermal Plant Manager	devon.brooks@northlake.example.edu	916-555-0104	Thermal plant operations, steam and chilled-water allocations	Documented	Internal thermal-service counterparty and plant escalation contact.
Northlake Thermal Plant	Mateo Alvarez	Ridgeline Wind Site Manager	ridgeline.ops@northlake.example.edu	707-555-0146	Ridgeline Wind site, turbine SCADA, met mast and the monthly transfer statement	Documented	Ridgeline operations shared mailbox; internal counterparty for the transfer statements.

Organization	Contact Name	Role	Email	Phone	Applies To	Review Status	Notes
Northlake University	Elena Vasquez	Associate Professor of Mechanical Engineering, Wind Energy Research Lab Director	wind.research@northlake.example.edu	916-555-4510	Wind Energy Research Lab data access and turbine performance research	Documented	Research lab shared mailbox; read-only access to the Ridgeline site.
Valley Electric District	Owen Blake	Electric account representative	owen.blake@valleyelectric.example	916-555-6100	Electric bills and interval files	Documented	
Sierra Gas Utility	Marisol Vega	Gas account representative	marisol.vega@sierragas.example	916-555-6150	Gas bills and route files	Documented	
River City Utilities	Dana Perez	Municipal utility representative	dana.perez@rivercity.example	916-555-6200	Water, sewer and stormwater bills	Documented	
Helios Onsite Solar	Simone Hart	Solar PPA representative	simone.hart@helios.example	916-555-6300	PPA statements and generation data	Documented	

Sites

Physical properties, the department responsible and the EEM company that owns each. Use Hierarchy for node types and parentage.

Site Name	Site Type	Street Address	City	State / Province	Country	Responsible Department	Owning Company	Review Status	Notes
Northlake Main Campus	Campus	4100 North Shore Drive	Sacramento	CA	USA	Facilities Operations	Northlake University	Documented	See building and service ownership; weather stations are external references.
Cedar Row Apartments	Multifamily	1280 Cedar Row Lane	Sacramento	CA	USA	Housing Operations	Cedar Row Apartments	Documented	See building and service ownership; weather stations are external references.
Northlake Central Plant	Plant	4122 Plant Service Road	Sacramento	CA	USA	Thermal Plant Operations	Northlake Thermal Plant	Documented	See building and service ownership; weather stations are external references.
Ridgeline Wind Site	Wind generation site	8400 Montezuma Hills Road	Rio Vista	CA	USA	Thermal Plant Operations	Northlake Thermal Plant	Documented	See building and service ownership; weather stations are external references.

Buildings

Physical building inventory and responsible departments. Each building appears once; use Hierarchy for EEM parents and Service Profiles for why its meters exist.

Building Name	Site Name	Building Type	Responsible Department	Service Address	Gross Area	Area Unit	Occupancy / Use Notes	Review Status	Notes
Admin Hall	Northlake Main Campus	Office classroom	Facilities Operations	100 Synthetic Campus Drive	85000	sq ft	Office classroom	Documented	ENERGY STAR child property of Northlake Main Campus.
Science Center	Northlake Main Campus	Lab classroom	Facilities Operations	120 Synthetic Campus Drive	120000	sq ft	Lab classroom	Documented	ENERGY STAR child property of Northlake Main Campus.
Library	Northlake Main Campus	Library	Facilities Operations	140 Synthetic Campus Drive	70000	sq ft	Library	Documented	ENERGY STAR child property of Northlake Main Campus.
Student Center	Northlake Main Campus	Food service event	Facilities Operations	160 Synthetic Campus Drive	95000	sq ft	Food service event	Documented	ENERGY STAR child property of Northlake Main Campus.
Lakeview Residence Hall	Northlake Main Campus	Residence hall	Facilities Operations	180 Synthetic Campus Drive	110000	sq ft	300 beds	Documented	ENERGY STAR child property of Northlake Main Campus.
Recreation and Aquatics Center	Northlake Main Campus	Recreation pool	Facilities Operations	200 Synthetic Campus Drive	65000	sq ft	Recreation pool	Documented	ENERGY STAR child property of Northlake Main Campus.
Parking Structure	Northlake Main Campus	Parking structure	Facilities Operations	220 Synthetic Campus Drive	180000	sq ft	Parking structure	Documented	ENERGY STAR child property of Northlake Main Campus; parking area excluded from the campus floor area.
Campus Grounds	Northlake Main Campus	Irrigated grounds	Facilities Operations	4100 North Shore Drive			Irrigated grounds	Documented	Outdoor service area with no floor area; not benchmarked.
Cedar Row A	Cedar Row Apartments	Multifamily housing	Housing Operations	400 Synthetic Grove Avenue	58000	sq ft	60 apartments	Documented	Building within the Cedar Row Apartments ENERGY STAR property.
Cedar Row B	Cedar Row Apartments	Multifamily housing	Housing Operations	420 Synthetic Grove Avenue	62000	sq ft	64 apartments	Documented	Building within the Cedar Row Apartments ENERGY STAR property.
Cedar Row Common House	Cedar Row Apartments	Leasing community pool	Housing Operations	1304 Cedar Row Lane	18400	sq ft	Leasing community pool	Documented	Building within the Cedar Row Apartments ENERGY STAR property.
Cedar Row Carport and Grounds	Cedar Row Apartments	Carport parking grounds	Housing Operations	1280 Cedar Row Lane			Carport parking grounds	Documented	Outdoor service area with no floor area; not benchmarked.
Central Plant	Northlake Central Plant	District energy plant	Thermal Plant Operations	4122 Plant Service Road	58400	sq ft	District energy plant	Documented	Benchmarked as its own ENERGY STAR property, outside the campus boundary.

Building Name	Site Name	Building Type	Responsible Department	Service Address	Gross Area	Area Unit	Occupancy / Use Notes	Review Status	Notes
Ridgeline Turbine Field	Ridgeline Wind Site	Wind turbine array	Thermal Plant Operations	8400 Montezuma Hills Road			Wind turbine array	Documented	Outdoor service area with no floor area; not benchmarked.
Ridgeline Substation	Ridgeline Wind Site	Collector substation	Thermal Plant Operations	8460 Montezuma Hills Road			Collector substation	Documented	Outdoor service area with no floor area; not benchmarked.

Service Profiles

The physical services each building needs. Every meter on the Meters tab traces back to one of these services.

Building	Heating	Cooling	Domestic Hot Water	Kitchen / Process Loads	On-site Generation	Fire Protection	Submetering / Irrigation / Production	Notes
Admin Hall	Steam from central plant	Rooftop DX electric	Gas water heaters	Pantry gas		Dedicated fire service line		
Science Center	Steam from central plant	Chilled water from central plant	Gas water heaters	Kitchenette gas, lab bench gas, fume hood exhaust, lab wing second electric service	Rooftop PV 420 kW DC	Dedicated fire service line		
Library	Steam from central plant	Rooftop DX electric	Gas water heaters					Electric meter replaced in August 2024; a SQL historian mirrors the electric service.
Student Center	Steam from central plant	Rooftop DX electric	Gas water heaters	Commercial gas kitchen, kitchen sewer deduct meter	Rooftop PV 360 kW DC			
Lakeview Residence Hall	Steam from central plant	Split DX electric	Gas water heaters	Laundry room submetered electric		Dedicated fire service line		

Building	Heating	Cooling	Domestic Hot Water	Kitchen / Process Loads	On-site Generation	Fire Protection	Submetering / Irrigation / Production	Notes
Recreation and Aquatics Center	Steam from central plant	Chilled water from central plant	Gas water heaters	Gas pool heaters, pool fill sewer deduct meter				
Parking Structure	None	None		Lighting and elevators, EV charger bank 12 ports submetered				
Campus Grounds				Unmetered area lighting 48 fixtures			North quad, south fields, athletics fields	Outdoor service area with no floor area; holds the irrigation and area-lighting services.
Cedar Row A	Electric heat pumps in units	Electric heat pumps in units	Central gas boilers			Dedicated fire service line	Electric per unit fixed network, water per unit handheld route, house electric, house water	
Cedar Row B	Electric heat pumps in units	Electric heat pumps in units	Central gas boilers			Dedicated fire service line	Electric per unit fixed network, water per unit handheld route, house electric, house water	
Cedar Row Common House	Rooftop gas furnace	Rooftop DX electric	Gas water heaters	Gas pool heater, common laundry, pool fill sewer deduct meter				
Cedar Row Carport and Grounds				Unmetered parking lighting 20 fixtures	Solar carport 240 kW DC		Landscape	Outdoor service area; holds the solar carport, parking lighting and landscape irrigation.
Central Plant		Cooling towers with makeup water		Cooling tower evaporation sewer deduct meter, chiller plant controller Modbus			Chilled water two 1200 ton electric centrifugal chillers, steam three gas fired boilers	Serves the campus steam and chilled-water loops; production is metered at the plant headers, delivery at each served building.
Ridgeline Turbine Field				Turbine SCADA 10 minute, met mast 50 m hub height	Wind ten 660 kW turbines 6600 kW			Ten turbines on one ridge, each with a revenue-grade pad meter and SCADA; the met mast stands upwind of WTG-01. No floor area.

Building	Heating	Cooling	Domestic Hot Water	Kitchen / Process Loads	On-site Generation	Fire Protection	Submetering / Irrigation / Production	Notes
Ridgeline Substation				Station service when turbines idle, research lab field office			Collector substation 34 5 kV interconnection	The point of interconnection with Valley Electric; its control house holds the SCADA server and the research lab's field office. No floor area is benchmarked.

Accounts And Agreements

One row per provider account, PPA agreement or internal cost center; several services may share an account. Owned submeters have no account.

Account / Agreement Name	Provider / Counterparty	Service Category	Account Number	Site / Building Scope	Cost Center	Start Date	End Date	Billing Contact	Review Status	Notes
Admin Hall / VED	Valley Electric District	External utility account	SYN-VED-A-0010001	Northlake University / Admin Hall		2024-01-01	Active	Finance and Accounts Payable	Documented	VED-TOU-GS
Science Center / VED	Valley Electric District	External utility account	SYN-VED-A-0010002	Northlake University / Science Center		2024-01-01	Active	Finance and Accounts Payable	Documented	VED-TOU-GS

Meters

Create each Meter node beneath its full Parent Path from Hierarchy. Measured Points identifies its Point children; bill-only meters have none. Ownership identifies the EEM company.

Meter Name	Meter Number / Tag	Service Category	Site Name	Building Name	Provider / Counterparty	Meter Kind	Ownership	Read Method	Review Status	Notes	Parent Path
Admin Hall Electric Main	SYN-VED-M-0040001	Electricity	Northlake Main Campus	Admin Hall	Valley Electric District	Utility meter	Northlake University	Bill / allocation statement	Documented	Company: Northlake University. Account: SYN-VED-A-0010001.	System / Northlake University / Northlake Main Campus / Admin Hall
Science Center Electric Main	SYN-VED-M-0040002	Electricity	Northlake Main Campus	Science Center	Valley Electric District	Utility meter	Northlake University	Valley Electric meter-data service	Documented	Company: Northlake University. Account: SYN-VED-A-0010002.	System / Northlake University / Northlake Main Campus / Science Center
Science Center Electric Lab Wing	SYN-VED-M-0040007	Electricity	Northlake Main Campus	Science Center	Valley Electric District	Utility meter	Northlake University	Bill / allocation statement	Documented	Company: Northlake University. Account: SYN-VED-A-0010002. Second utility service feeding the laboratory wing and its exhaust fans.	System / Northlake University / Northlake Main Campus / Science Center
Library Electric Old Meter	SYN-VED-M-0040003	Electricity	Northlake Main Campus	Library	Valley Electric District	Utility meter	Northlake University	Bill / allocation statement	Documented	Company: Northlake University. Account: SYN-VED-A-0010003. Service dates: 2024-01-01 through 2024-08-14.	System / Northlake University / Northlake Main Campus / Library
Library Electric New Meter	SYN-VED-M-0040103	Electricity	Northlake Main Campus	Library	Valley Electric District	Utility meter	Northlake University	Bill / allocation statement	Documented	Company: Northlake University. Account: SYN-VED-A-0010003. Service dates: 2024-08-15 through active. Replaces Library Electric Old Meter; keep histories separate.	System / Northlake University / Northlake Main Campus / Library

Units and Submeters

One row per apartment. Each apartment has an owned electric submeter and an owned water submeter behind the building's utility master meters; tenant rebilling maps to these points.

Building	Unit	Floor	Electric Submeter Tag	Electric Point	Water Submeter Tag	Water Register Point	Water Usage Point	Read Method

Measured Points

Point definitions for interval, route, register, sensor and equipment channels. Enter only the points marked Enter: EEM creates a usage and a rate-of-change point behind every register point, and the degree-day points behind a temperature index. Bill usage stays on the billing account and has no point here.

Point Name	Meter Name	Measurement	Direction / Role	Units	Interval / Frequency	How Created	Use In Reporting	Review Status	Notes
Delivered kWh 15m	Science Center Electric Main	Interval usage	Analog	kWh	15 minutes	Enter	Yes	Documented	Source: Valley Electric meter-data service
Demand kW 15m	Science Center Electric Main	Interval demand	Analog	kW	15 minutes	Enter	Yes	Documented	Source: Valley Electric meter-data service
Delivered kWh 15m	Student Center Electric Main	Interval usage	Analog	kWh	15 minutes	Enter	Yes	Documented	Source: Campus AcquiSuite loggers
Demand kW 15m	Student Center Electric Main	Interval demand	Analog	kW	15 minutes	Enter	Yes	Documented	Source: Campus AcquiSuite loggers
Delivered kWh 15m	Lakeview Hall Electric Main	Interval usage	Analog	kWh	15 minutes	Enter	Yes	Documented	Source: Campus AcquiSuite loggers
Demand kW 15m	Lakeview Hall Electric Main	Interval demand	Analog	kW	15 minutes	Enter	Yes	Documented	Source: Campus AcquiSuite loggers
Delivered kWh 15m	Recreation Center Electric Main	Interval usage	Analog	kWh	15 minutes	Enter	Yes	Documented	Source: Valley Electric meter-data service
Demand kW 15m	Recreation Center Electric Main	Interval demand	Analog	kW	15 minutes	Enter	Yes	Documented	Source: Valley Electric meter-data service

Point Name	Meter Name	Measurement	Direction / Role	Units	Interval / Frequency	How Created	Use In Reporting	Review Status	Notes
Delivered kWh 15m	Central Plant Electric Service	Interval usage	Analog	kWh	15 minutes	Enter	Yes	Documented	Source: Valley Electric meter-data service
Demand kW 15m	Central Plant Electric Service	Interval demand	Analog	kW	15 minutes	Enter	Yes	Documented	Source: Valley Electric meter-data service
Exported kWh 15m	Ridgeline Interconnection Meter	Interval export	Analog	kWh	15 minutes	Enter	Yes	Documented	Source: Valley Electric meter-data service
Station Service kWh 15m	Ridgeline Interconnection Meter	Interval usage	Analog	kWh	15 minutes	Enter	Yes	Documented	Source: Valley Electric meter-data service
Reactive kVArh 15m	Ridgeline Interconnection Meter	Interval reactive	Analog	kVArh	15 minutes	Enter	Yes	Documented	Source: Valley Electric meter-data service
Register Reading	Student Center Kitchen Gas	Handheld register reading	Accumulator	Reading	Monthly route / actual reading dates	Enter with the usage unit, then capture the generated usage point	Yes	Documented	Manual reading, related-point calculation or a later input path.
Route Usage Therms	Student Center Kitchen Gas	Handheld usage delta	AccumulatorDelta	Therms	Monthly route / actual reading dates	Generated by EEM with its register point	Yes	Documented	Source: Student Center gas route
Delivered kgal 60m	Cedar Row A Water Master	Interval usage	Analog	kgal	60 minutes	Enter	Yes	Documented	Source: Cedar Row A water export
Register Reading	Cedar Row B Water Master	Handheld register reading	Accumulator	Reading	Monthly route / actual reading dates	Enter with the usage unit, then capture the generated usage point	Yes	Documented	Manual reading, related-point calculation or a later input path.
Route Usage kgal	Cedar Row B Water Master	Handheld usage delta	AccumulatorDelta	kgal	Monthly route / actual reading dates	Generated by EEM with its register point	Yes	Documented	Source: Cedar Row B water route
Delivered Ton-Hours 60m	Science Center Chilled Water	Interval usage	Analog	Ton-Hours	60 minutes	Enter	Yes	Documented	Source: Central plant building automation
Demand Tons 60m	Science Center Chilled Water	Interval demand	Analog	Tons	60 minutes	Enter	Yes	Documented	Source: Central plant building automation
Delivered Ton-Hours 60m	Recreation Center Chilled Water	Interval usage	Analog	Ton-Hours	60 minutes	Enter	Yes	Documented	Source: Central plant building automation

Point Name	Meter Name	Measurement	Direction / Role	Units	Interval / Frequency	How Created	Use In Reporting	Review Status	Notes
Demand Tons 60m	Recreation Center Chilled Water	Interval demand	Analog	Tons	60 minutes	Enter	Yes	Documented	Source: Central plant building automation
Generated kWh 15m	Science Center PV Array	Interval generation	Analog	kWh	15 minutes	Enter	Yes	Documented	Source: Helios solar meter-data service
Exported kWh 15m	Science Center PV Array	Interval export	Analog	kWh	15 minutes	Enter	Yes	Documented	Source: Helios solar meter-data service
Plane-of-Array Irradiance 15m	Science Center PV Array	Sensor observation	Analog	W/m2	15 minutes	Enter	Yes	Documented	Source: Helios solar meter-data service
Generated kW 15m	Science Center PV Array	Interval generation demand	Analog	kW	15 minutes	Enter	Yes	Documented	Manual reading, related-point calculation or a later input path.
Generated kWh 15m	Student Center PV Array	Interval generation	Analog	kWh	15 minutes	Enter	Yes	Documented	Source: Helios solar meter-data service
Exported kWh 15m	Student Center PV Array	Interval export	Analog	kWh	15 minutes	Enter	Yes	Documented	Manual reading, related-point calculation or a later input path.
Generated kW 15m	Student Center PV Array	Interval generation demand	Analog	kW	15 minutes	Enter	Yes	Documented	Manual reading, related-point calculation or a later input path.
Generated kWh 15m	Cedar Row Solar Carport	Interval generation	Analog	kWh	15 minutes	Enter	Yes	Documented	Source: Helios solar meter-data service
Exported kWh 15m	Cedar Row Solar Carport	Interval export	Analog	kWh	15 minutes	Enter	Yes	Documented	Manual reading, related-point calculation or a later input path.
Generated kWh 10m	Ridgeline WTG-01	Interval generation	Analog	kWh	10 minutes	Enter	Yes	Documented	Source: Ridgeline turbine SCADA and met mast
Active Power kW 10m	Ridgeline WTG-01	Interval generation demand	Analog	kW	10 minutes	Enter	Yes	Documented	Source: Ridgeline turbine SCADA and met mast
Possible kW 10m	Ridgeline WTG-01	Interval possible generation	Analog	kW	10 minutes	Enter	Yes	Documented	Source: Ridgeline turbine SCADA and met mast

Point Name	Meter Name	Measurement	Direction / Role	Units	Interval / Frequency	How Created	Use In Reporting	Review Status	Notes
Nacelle Wind Speed 10m	Ridgeline WTG-01	Sensor observation	Analog	m/s	10 minutes	Enter	Yes	Documented	Source: Ridgeline turbine SCADA and met mast
Rotor Speed 10m	Ridgeline WTG-01	Equipment speed	Analog	RPM	10 minutes	Enter	Yes	Documented	Source: Ridgeline turbine SCADA and met mast
Turbine State	Ridgeline WTG-01	Equipment status	Digital	State	10 minutes	Enter	Yes	Documented	Source: Ridgeline turbine SCADA and met mast

Weather Assignments

Shared station ownership avoids duplicating weather measurements under every building; every building in every company is assigned.
