Notes for setup:

- We expect a **monthly fuel cost adjustment** on this service — a per-therm amount that changes each month. Please model it so each month can carry its own adjustment value.
- Strong winter heating peak; near-flat summer base load.

- One billing period was issued as an **estimate** and later **corrected** with an actual read (Student Center) — please handle the correction without double-counting.
- A negative-test file for this service intentionally uses an unsupported unit (BTU/hr) and should be rejected, not loaded.
- Accounts on SGU-GN-1: Admin Hall, Science Center, Library, Student Center, Lakeview Residence Hall, Recreation and Aquatics Center, Cedar Row A, Cedar Row B and Cedar Row Common House. Cedar Row A and B gas serves the central domestic hot-water boilers; apartments have no gas service.
