Chilled water and steam for the Science Center on one statement, in a March shoulder month when the labs still cool while the building heats: chilled water is allocated on metered ton-hours and the monthly hourly peak, steam on metered klb. The fixed operations and maintenance line is the building's flat share of the plant's fixed costs; neither tariff prices it, so it has no rate. Post as a journal to 5130-THERMAL; no payment is due.
