**$35,873.48**

Summer cooling: 180,860 ton-hours for July, and a monthly peak of 542 tons recorded on July 18 between 15:00 and 16:00 (the hourly interval data is kept for cost-recovery audit). The Science Center's steam meter recorded no steam in July, so there is no steam line. The fixed operations and maintenance line is the building's flat share of the plant's fixed costs; neither tariff prices it. Post as a journal to 5130-THERMAL; no payment is due.
