Report Coverage Matrix (all 115 reports)

PREPARED BY Energy Hippo implementation team

Every report in EEMSuite (`dbo.GuiReports_Tbl` joined to `dbo.GuiReportTypes`), mapped to its data-capability bucket, its **current** coverage by Northlake, and the **phase** that closes the gap. Phases map onto the build stages in the roadmap: Phase 0 is Stages 1 and 2, Phase 1 is Stages 3 and 5, Phase 2 is Stage 4, Phase 3 is Stage 6, Phase 4 is Stage 7, Phase 5 is Stage 8 and Phase 6 is Stage 9. Where a screen cannot create the data a report needs, the gap is in product findings.

Status (current): ● data design already covers it (once loaded) · ● partial (needs additions, e.g. charge lines / digital points / benchmark config) · ● no data today.

`MFR` = report can be saved & scheduled for delivery (`AllowMFR=1`); 92 of 115.

Bill Management (5)

Report	Bucket	Status	Phase
bill_entry	bill entry screen	●	1
bill_importer	importer screen	●	6
cst_smartgrid	custom grid	●	1
rp_BillEntryList	bills + accounts	●	1
scriptstring_dashboard	custom embed	●	1

Bill Processing (12)

Report	Bucket	Status	Phase
rp_AccountDetail	account metadata	●	1
rp_AccountHistory	monthly bills	●	1
rp_AccountSummary	account metadata	●	1
rp_FiscalPeriodBills	monthly bills	●	1
rp_billdatagaps	bill data gaps	●	1
rp_DailyProcessingSummary	bills + status history	●	1
rp_LateBills	bills + status history	●	1
rp_AccountsPayableDetail	AP / financial interface	●	3
rp_APApprovalAndUpload	AP approval + upload	●	3
rp_BillValidation	bill validation	●	3
rp_OpenAccruals	accruals	●	3

Bill Tracking (9)

Report	Bucket	Status	Phase
rp_BillHistory	monthly bills	●	1
rp_BillVariance	monthly bills	●	1
rp_BillVarianceAnalysis	monthly bills	●	1
rp_BillVarianceDetail	monthly bills	●	1
rp_BillVarianceRanking	monthly bills	●	1
rp_FacilityAccountDetail	bills + account	●	1
rp_CostBreakOut	bills (charge lines)	●	1
rp_BenchmarkRanking	benchmarks	●	5
rp_PerformanceSnapshot	bills + benchmark	●	5

Use Analysis (15)

Report	Bucket	Status	Phase
rp_TimeInterval	interval	●	1
rp_24HourLineChart	interval	●	1
rp_MultiPointTrend	interval	●	1
rp_HeatMap	interval	●	1
rp_LoadDurationCurve	interval	●	1
rp_Histogram	interval	●	1
rp_ScatterPlot	interval (+ regression)	●	1
rp_Summary	interval	●	1
rp_AverageHourlyProfile	interval	●	1
rp_DataViewExport	interval	●	1
rp_MonthlyEUI	interval + area	●	1
rp_UsageVariance	interval (+ weather)	●	1
rp_AggregateDemand	aggregate demand	●	1
rp_AggregatePeakLoad	aggregate demand	●	1
rp_DigitalSummary	digital interval	●	1

Rate Analysis (9)

Report	Bucket	Status	Phase
rp_RateSummary	rate components	●	2
rp_RateMeterInformation	rate + meter assignment	●	2

Report	Bucket	Status	Phase
rp_RateMeterAssignment	rate + meter assignment	●	2
rp_CostSummary	rate calc	●	2
rp_BillingCharges	rate execution (calc)	●	2
rp_RateAllocation	rate calc	●	2
rp_RateClassAssignment	rate class options	●	2
rp_RateComparison	shadow billing	●	2
rp_RatePointAssignment	rate + point	●	2

Tenant Rebilling (14)

Report	Bucket	Status	Phase
rp_BillAllocationConfiguration	bill allocation	●	4
rp_TenantBillAllocationMap	bill allocation	●	4
rp_TenantBillDefinition	bill allocation	●	4
rp_TenantBillAudit	bill allocation	●	4
rp_BillGenerationConfig	bill generation	●	4
rp_GeneratedBills	bill generation	●	4
rp_BillMaintenance	bill generation	●	4
rp_BillReconciliation	reconciliation	●	4
rp_RateComponentMap	commodity map	●	4
rp_WUIPointFamilyConfig	WUI point allocation	●	4
rp_WUIPointUseHistory	WUI point allocation	●	4
rp_WUIProcessMeterAllocations	WUI point allocation	●	4
rp_accruals	accruals	●	4
rp_mpaaccruals	accruals	●	4

Energy Star Rating (5)

Report	Bucket	Status	Phase
facility_setup	ES facility setup screen	●	5
new_rating_request	ES request screen	●	5
rp_ESRatingComparison	ES rating responses	●	5
rp_ESRatingHistory	ES rating responses	●	5
rp_ESRatingRequestLog	ES rating responses	●	5

Green House Gas (3)

Report	Bucket	Status	Phase
rp_GHGHistory	GHG emissions	●	5
rp_GHGVariance	GHG emissions	●	5
rp_GHGAudit	GHG emissions	●	5

Project Tracking (5)

Report	Bucket	Status	Phase
rp_ProjectDetail	project financials	●	6
rp_ProjectSummary	project financials	●	6
rp_ProjectFinance	project financials	●	6
rp_ProjectTrackingConfiguration	project config	●	6
rp_ApplyRateSchedule	rate history + project	●	6

System Manager (27)

Report	Bucket	Status	Phase
rp_BuildingList	hierarchy + premise	●	0
rp_PointsList	points inventory	●	0
rp_PointDataMap	points inventory	●	1
rp_IndexList	index points	●	1
rp_HierarchyDetailsEditor	hierarchy editor	●	0
Data_Validation	bill/interval cross-check	●	1
rp_NoteHistory	notes	●	1
rp_ImageManagement	images	●	1
rp_GLAccountUDV	AP / GL	●	3
my_exports	export log	●	3
rp_BillValidationStatus	bill validation	●	3
rp_TenantMap	tenant allocation	●	4
rp_weatherregression	weather regression	●	5
emission_company_config	GHG config screen	●	5
emission_factor	GHG config screen	●	5
emission_meter_assign	GHG config screen	●	5
emission_source	GHG config screen	●	5
emission_type	GHG config screen	●	5

Report	Bucket	Status	Phase
rp_GatewayStatus	gateway / live status	🟡	6
rp_TaskLog	task logs	🔴	6
rp_Audit	audit logs	🔴	6
rp_ActivityTracker	activity logs	🔴	6
rp_AlarmDataMap	alarms	🔴	6
log_analysis	log screen	🟡	6
my_imports	import log	🔴	6

My Reports (5)

Report	Bucket	Status	Phase
rp_monthlyutilitydistributionreport	monthly bills	🟢	1
rp_meterevents	meter events	🟡	1
rp_cngtestreportcgr	bills (custom CNG)	🟡	1
rp_RegressionSummaryReport2	weather regression	🔴	5
rp_EnergyAIInsights	EnergyAI insights	🔴	6

System Administration (8)

Report	Bucket	Status	Phase
admin_reportconfig	config screen	🟢	0
admin_reportxmlconfig	language/config screen	🟢	0
company_calendar	calendar screen	🟢	0
user_editor	user screen	🟢	0
rp_AnonymizeData	admin tool	🟢	0
rp_HMRConfiguration	HMR	🟡	6
hmr_export	HMR	🟡	6
job_scheduler	tasks dashboard	🟡	6

HMR configuration is entered once in Stage 3. Stage 9 reuses it for the reader round, native-file return, stored-history and exception-review exercises described in the handheld environment plan. The legacy phase number above is a report-category mapping, not a second setup instruction.

Modules (1)

Report	Bucket	Status	Phase
laco_dash_trending	custom dashboard (interval)	●	6

Tally by phase

Phase	Reports closed (cumulative new coverage)
0 Foundation	8 substrate/config screens render
1 Consumption & cost	~35 (Use Analysis 15, Bill Processing/Tracking core, inventory, distribution)
2 Rate engine	9 Rate Analysis
3 AP / GL & validation	7 (AP, GL UDV, validation, open accruals, export log)
4 Tenant rebilling	15 (Tenant Rebilling 14 + TenantMap)
5 Sustainability & analytics	14 (GHG 3, ES Rating 5, regression 2, benchmark 2, emission config screens)
6 Operations & engagement	remainder (projects 5, alarms, audit/activity, tasks/gateway/log, HMR, EnergyAI, importers, custom dashboards) + MFR delivery layer over all 92 deliverable reports

> The phase a report is listed under is where its **data** first becomes non-empty. Many reports also gain depth in later phases (e.g. ScatterPlot/UsageVariance get weather-normalization in Phase 5; bills get GL coding in Phase 3).
